

The STATus Report

Seabreeze STAT Asthma and COPD Update
(CBP-201-206 & CBP-201-207)

Volume 2 – Issue 10
October 2026 Topics:

- ❖ Topline Results
- ❖ Study Reminders
- ❖ Thank You

THANK YOU! | Хвала вам | ¡Gracias! | გმადლობთ

Our sincere gratitude for all your hard work, from participant recruitment and retention to data entry and query resolution, and everything in between!

We did it!

Topline Results

This month, we are excited to share with you the topline preliminary results of our 2 completed studies. You should also have received a calendar invitation to hear more about the study results on Oct 8th.

Asthma

- Rademikibart meaningfully reduced the rate of treatment failure at 28 days compared to placebo, although it was not statistically significant
- Rademikibart produced a rapid, statistically significant improvement in lung function at Day 7 compared to placebo

COPD

- Rademikibart significantly reduced the rate of treatment failure compared to placebo at 28 days
- Rademikibart significantly reduced the rate of new moderate-to-severe COPD exacerbations through one month
- Rademikibart produced a clinically meaningful improvement in lung function at Week 4 compared to placebo

In addition, rademikibart was well tolerated in asthma and COPD patients experiencing an acute exacerbation with a lower incidence of adverse events than placebo in both trials.

Study Reminders

Close Out Visits: If you have not already done so, please work with your CRA to finalize the date of your site's Close Out Visit

Spirometry equipment return:

- Go to <https://www.zephyrx.com/seabreeze>
- Click 'Equipment Returns'
- Complete the Equipment Return Request Form
- ZEPHYRx logistics team will contact your site directly (via the contact information provided in the form) with the shipping return label

IP return or destruction:

- If your site has the ability to destroy drug onsite, please send the applicable SOP to your CRA
- If planning to return IP to the depot, follow the region-specific return instructions located on the Seabreeze website

Lab kits: May be destroyed or repurposed, no return necessary.

Final invoices: Please ensure final invoices are submitted within 5 days of COV.
