

The STATus Report

Seabreeze STAT COPD (CBP-201-207)

Volume 2 – Issue 9
September 2026 Topics:

- ❖ Study Reminders
- ❖ Data Cleaning

STUDY REMINDERS

Database Lock Timelines

- ❖ **Last Day for PI Sign-Off: 16Sep26**
- ❖ Batch 1-3 Freezing: Complete
- ❖ Batch 4 Freezing: 14Sept26 (Final Batch)
- ❖ Final Database Lock: 17Sep26
 - ***Database lock has been postponed by 1 day***

If your site investigator has yet to complete all sign offs, please have the investigator complete this as soon as possible. The Principal Investigator (PI) may delegate to a physician Sub-Investigator if included on the Delegation of Authority log.

Remember to submit all final invoices.

Follow-Up of Adverse Events: Protocol Section 11.8

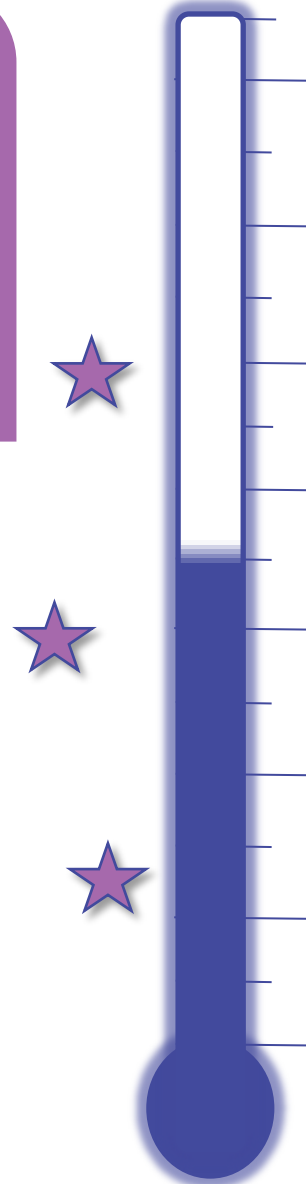

Ongoing nonserious AEs and SAEs should be followed the last scheduled trial visit until the event resolves (for SAEs, until it no longer meets the seriousness criteria), the condition stabilizes, or the event is explained/judged to be no longer clinically significant.

If IP cannot be returned to the depot by the sites, please contact your CRA.

DATA CLEANING

Of 72 open queries, 36 (50%) have responses. Please keep responding to queries so we can close them!

COPD AIR-WAVE COLOR CHALLENGE

Follow the purple key.

As the cloud fills with color, a *hidden message* will ride in on the airflow!

1 MIST

2 LILAC

3 ORCHID

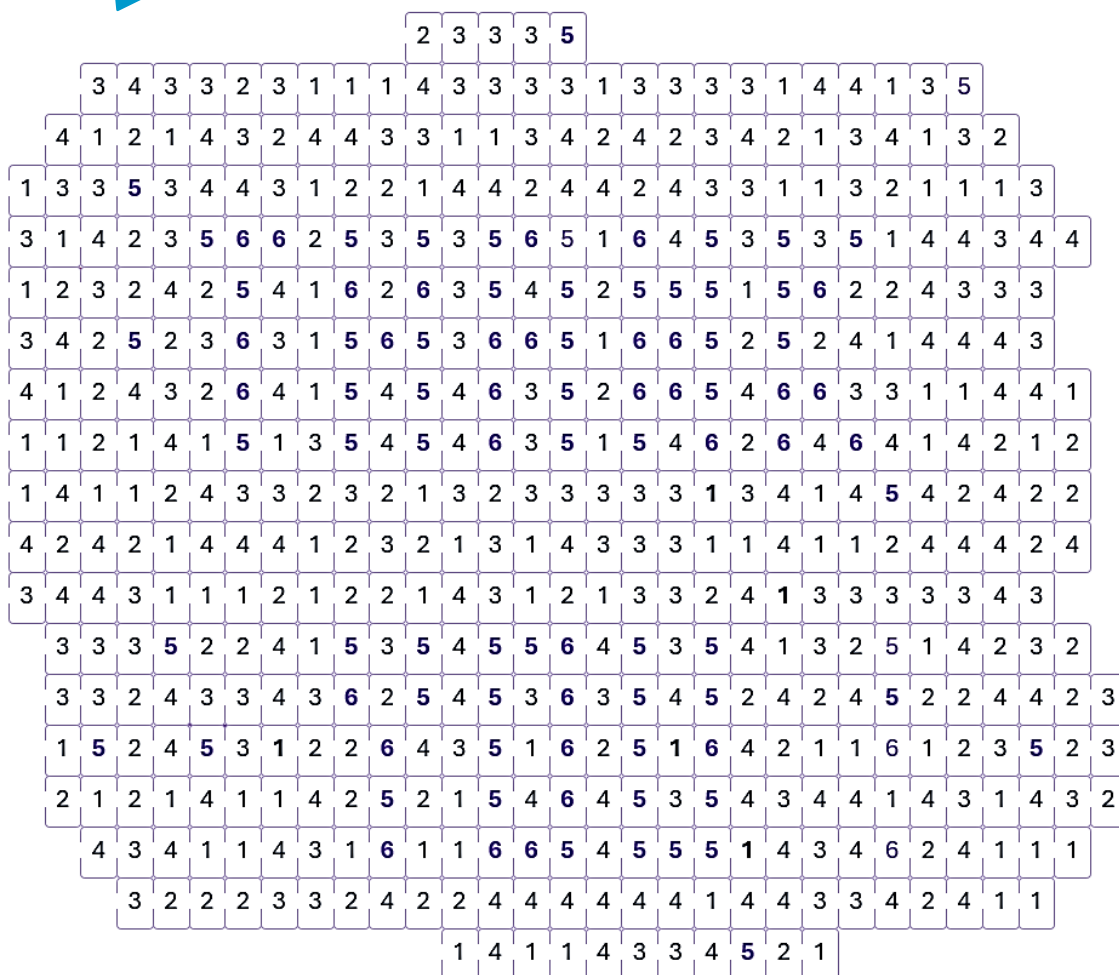

4 VIOLET

5 NAVY

6 BLACK

COLOR ME!

WHILE YOU
COLOR...

Find 4 stars

Guess the
hidden message

Reflect on what
a great job you
are doing!

WHAT DID
YOU REVEAL?

Hint: 5 + 6

As database lock approaches, the finish line is so close!
The dedication, expertise, and teamwork demonstrated throughout
this study have made every milestone possible.

Thank you for helping patients breathe better everyday

Hidden Message: THANK YOU !
