

ThermoFisher USA Depot Instructions for Return of IMP from Site to Depot

ThermoFisher USA Depot will provide all required documentation and instructions to support the return of Investigational Product (IP) from the site to the depot.

To initiate the return process:

1. Complete **FORM-000071062 (Return Medication Collection Request Form US 700B)** and submit request to gl.hd@thermofisher.com .
2. Ensure the following information is included on IP Return Form:
 - Sponsor Name
 - Protocol
 - Date of request
 - Requester name
 - Job Number:
 - CBP-201-206: 86715
 - CBP-201-207: 86716
 - Site number, Site name and address,
 - Site Contact, Site Contact email, Site contact phone number
 - Quantity of boxes, Shipment weight, Shipment dimensions
 - Product Description:
 - Carton contains 2 single dose prefilled syringe (containing 1mL of solution for injection each). **Rademikibart 150mg/ml** or **Rademikibart** placebo for subcutaneous injection.
3. An Air Waybill (AWB) will be provided to the site by Thermo Fisher within 24 hours of receipt of the completed return request.
4. The site will email gl.hd@thermofisher.com to request IP collection. Thermo Fisher will then provide collection instructions and schedule the pickup.
5. Please note that site is responsible for the packaging. Since IP is being returned for destruction, there is no temperature requirements. A typical cardboard box is sufficient.
6. Once FedEx picks up from the site, it is returned via ground service.
7. Timeline is 1-5 days depending on location of the site.
